Hello Stellar Developers!

Today Stellar Ambassador Hiring Call out 1

Stellar is a Decentralized Blockchain platform that connects people, businesses, and institutions. Ideal and useful proof-of-work based contracts and DEFI protocols.

Please ensure you have the prerequisites

Decentral Building a crowd of Stellar Ambassadors to help spread the word about Stellar's capabilities and the Stellar Ecosystem's transparency that allows it to remain anonymous while still being a decentralized platform.

Stellar Ambassadors will be responsible for writing articles, making videos, hosting twitter spaces, and helping people in the community. Stellar is a very real technology!

You don't need to be an expert in Stellar to start but you need to know the basics of Stellar.

If this sounds like a great opportunity, read on!

Stellar is a decentralized, open-source platform for decentralized applications, smart contracts, and DEFI protocols.

The stellar 2.0 Soroban contracts and Stellar Asset Contract (SAC) are a powerful combination that allows for a wide range of DEFI applications to be built on top of the Stellar Ecosystem.

Wait, if they're so smart?

Why Stellar contracts? **Why Stellar pick-up and tokens?**
